

MUHAMMAD WALEED

FULL STACK DEVELOPER | EXPLORING AI & AGENTIC SYSTEMS

✉ mianwaleed2272@gmail.com | [in muhammad-waleed-a0037a2ab](#) | 📞 +92-3004610599 | 🌐 [Portfolio](#)

SUMMARY

Ambitious MERN Stack developer with hands-on experience building scalable web applications using React.js, Node.js, and MongoDB. Skilled in RESTful APIs, and modern frontend development. With a growing focus on Artificial Intelligence, including AI agents, Agentic AI systems, and LLM-based applications, with hands-on exposure to prompt engineering and AI tool integration. Seeking opportunities to grow.

SKILLS

- **Core:** Full Stack Development, REST API Design, Frontend Development, Backend Development
- **Languages:** JavaScript (ES6+), TypeScript, C/C++, Python, HTML5, CSS3
- **Frontend:** React.js, Tailwind CSS
- **Backend:** Node.js, Express.js, MongoDB, Mongoose, Postman, Thunder Client
- **DevOps & Tools:** Git, GitHub, Vercel, Render, Railway

PROJECTS

Portfolio Site | [Github](#) | React, TypeScript, Vite, Tailwind CSS |

- Designed and developed a modern single-page portfolio application using React 18 with TypeScript and Vite, featuring a dark-themed UI with glassmorphism effects, scroll-reveal animations, and a fully responsive layout.
- Implemented performance-optimized styling using locally compiled Tailwind CSS via PostCSS, custom CSS keyframe animations, Intersection Observer-based scroll reveals, and static PDF resume download functionality deployed on Vercel with CI/CD via GitHub.

SchoolWise Manager | [Github](#) | React, TypeScript, Supabase, jsPDF, Tailwind CSS |

- Architected a cloud-based administration platform utilizing Supabase for real-time data synchronization and PostgreSQL for managing complex relational student and financial data.
- Engineered a professional document generation system using the jsPDF library, automating the creation of triple-copy, print-ready fee vouchers featuring dynamic data injection and school-branded watermarks.
- Streamlined school operations by automating the generation of PDF vouchers and academic reports, fees and dues calculations and records reducing manual administrative workload by over 70%
- Successfully deployed and currently utilized by The Punjab Lyceum School to manage records for 150 students.

SkillMap AI | [Github](#) | React, TypeScript, Node.js, FastAPI, MongoDB, Tailwind CSS |

- Built a full-stack AI-powered career guidance platform using React, Node.js, FastAPI, and MongoDB to help users with resume analysis, interview preparation, and career roadmaps.
- Developed an AI resume analysis system that compares resumes with job descriptions, identifies missing skills, and generates personalized learning recommendations.
- Created an interview preparation feature that generates role specific technical, behavioral, and system design questions with AI-based answering tips.
- Implemented features like recruiter mode, candidate matching, gamified skill tracking, and an AI career assistant chatbot.
- Integrated Groq's Llama 3.3 model for real-time AI responses and career guidance features.

EDUCATION

Bachelors of Computers Science (BSCS)

- University Of Punjab

Lahore, Pakistan

CERTIFICATIONS

- Javascript MEAN/MERN STACK - KICS, UET Lahore
- Level 1 Agentic AI Developer - PIAIC, Lahore
- Outskills Generative AI 2 Days Bootcamp
- ChatGPT Prompt Engineering for Developers - DeepLearning.AI (Andrew Ng)
